SUMMARY

Product Engineer who designs and ships software systems from concept to deployment. Built production e-commerce platforms, adaptive learning systems with machine learning, SaaS tools, and business websites for real clients. AIML undergrad applying machine learning and data modeling to real products, focused on product design, workflow automation, and technology that solves operational problems.

SKILLS

Product & Systems: Systems Design, Requirements Engineering, User Experience Design, Rapid Prototyping, Database Design, API Integration

Solution Development: SaaS Platforms, E-Commerce Systems, Learning Platforms, Automation Systems, Admin Dashboards

Technologies: TypeScript, JavaScript, Python, React, Next.js, Node.js, Supabase, PostgreSQL, Tailwind CSS

AI & Data: Machine Learning, Adaptive Algorithms, Data Modeling, Knowledge Graphs

Testing & Tools: Playwright, Vitest, Sentry, GitHub, Vercel, Postman, Figma

PROJECTS

Possah — *Production e-commerce for a live apparel brand*

TypeScript · Next.js · Supabase/Postgres · Razorpay · Sentry · Playwright · Vitest thepossah.com

- Owned end-to-end design and development of a production e-commerce platform processing real transactions — storefront, admin panel, payment processing, order management, fulfillment workflows, and deployment infrastructure.
- Integrated authentication, payment processing (Razorpay), error monitoring (Sentry), and automated testing (Playwright/Vitest) to ensure platform reliability at production scale.

Synthesis — *Adaptive learning engine that personalizes what you study next*

Next.js · TypeScript · SQLite · dagre / React Flow · JWT synthesis-adaptive-learning.vercel.app

- Designed and implemented a machine-learning-driven learning system that models learner progression through Bayesian Knowledge Tracing, spaced-repetition scheduling, prerequisite graph traversal, and adaptive pathway generation.
- Developed visual representations of knowledge dependencies to help learners understand progression requirements and learning gaps.

Blueprint Builder — *Turns messy client requirements into structured specifications*

Next.js 14 · TypeScript · Supabase/Postgres · Tailwind · Vercel web-builder-1-six.vercel.app

- Built a structured requirement discovery system that transforms client goals and business needs into implementation-ready website specifications.
- Reduced ambiguity during project planning by standardizing information collection and project handoff workflows.

Fitness Garage & Zingara — *Took two local businesses online*

HTML · CSS · JavaScript fitness-garage.in · zingararestaurant.co.in

- Designed and launched official websites for 2 operating local businesses, translating operational requirements into customer-facing digital experiences now serving as their primary online presence.
- Worked directly with stakeholders to structure information architecture, service presentation, inquiry flows, and conversion-focused user journeys.

EXPERIENCE

Operations Team Lead — E-Cell, UVCE, Bengaluru, IN Sep 2023 – May 2025

- Coordinated logistics, execution, outreach, and cross-functional teams for entrepreneurship-focused events and innovation challenges.
- Drove 200+ participants to a case competition through structured planning and a focused content push.

Web Design & Content — Greek God Clothing, Bengaluru, IN Jan 2025 – Apr 2025

- Led end-to-end product lifecycle for a brand's first online store — from concept and Figma prototyping to live deployment; shaped the content calendar around product drops.

Marketing Intern — Jobert Apparels Pvt Ltd, Bengaluru, IN Apr 2025 – Oct 2025

- Developed 3 new sub-brand identities from scratch — names, logos, slogans tailored to target audiences — and established the brand's complete customer-facing communication channels.

EDUCATION

University of Visvesvaraya College of Engineering (UVCE) — Bengaluru, Karnataka Expected 2027

B.Tech, Artificial Intelligence & Machine Learning · CGPA 8.9 / 10

Base PU College — Bengaluru, Karnataka 2021 – 2023

Pre-University (PCMC) · 92%

Jaigopal Garodia Rashtrorathana Vidya Kendra — Bengaluru, Karnataka 2021

Secondary School Certificate (Class X) · 94%
